Himanshu Sharma

Front End Engineer - Iron Systems || Ex - TCSer
Noida

Summary

Dear Reader,

I am Himanshu Sharma, passionate Frontend Engineer with
more than 4 years of rich experience in doing rapid development
of web applications. I have good understanding of SDLC and
having experience in working with product managers and technical
engineers. As I am responsible for innovation, conceptualization
and end-to-end development of applications, I got appreciation from
clients and managers and brilliant client interaction and retaining
capabilities has been very much appreciated. I always use to take
my work as my hobby which makes me a unique performer.

Technical expertise includes : -

★ Strong in Front End Technologies: Angular, Native Script, Jquery,
HTML, CSS3, SCSS, Bootstrap and Javascript.
★ Back End: NodeJS, Express.
★ Strong Database Skills: SQL, MongoDB
★ Good Experience with REST API, Version tools (Git, Bitbuket).
★ Strong knowledge of Object oriented Progrmming Concept,
Design Patterns, Typescript.
★ Strong knowledge of Agile Practices (Sprint Planning , Stand Up
calls, work items and bug fixes).
★ Experience with HTML5/CSS3 , Bootstrap, ChartJS, SASS.
★ Experience with Azure DevOps, AWS Code Commit and CI/CD
pipelines.
★ Experience in Unit test case writing using Karma , Jasmin in
Angular.

Thanks & Regards
Himanshu Sharma

Experience

Iron Systems, Inc
Software Engineer
May 2020 - Present (1 year 4 months)
Noida, Uttar Pradesh

I am working with team of 20+ developers and working on various front end
and backend technologies (Angular ,NodeJS, MongoDB, Javascript) and
writing Unit test cases (Karma/Jasmin) for newly created components also i
have hand on experience in loopback for Rest API development

Tata Consultancy Services
Assistant System Engineer
July 2017 - April 2020 (2 years 10 months)
Bangalore

1. Financial Spreading - AI based project and my work is totally in UI and i
have developed UI of some module and integrated python and NodeJS based
REST API with front end (Angular) and also implemented charts for various
module.

2. ChatBot - I was only front end developer and I have developed chatbot
UI in Angular 6 and integrated with backend models and API's , I used AWS
transcribe and polly services for text to voice conversion and implimented
some charts using primeNG (third party npm package).
